BY HUSH WHITE'S SALT LAKE LINE: J Vandyke

A LETTER is in the Postoffice addressed to A. Poorman, Pioche. Without making an invidious distinction, a number of folks say that letter is intended for them. On the ground of lack of worldly goods, this local put in a demand, but our obliging Postmaster, Mr. Abrahams, failed to see it, unless we declared that was our name. The local went off grumbling, saying if "Poorman" was not his name in the eternal fitness of things, it ought to be. The Poorman has not a bit of sense; be is not only poor but he is not contented unless he is blabbing his unfortunate condition to the whole world. Who wants that letter is still the question. On the ground of lack of worldly goods,

The Doctor found his patient suff-ring from a persistent gape caused by a pre-tracted yawn. By proper measures Dr. Deal reduced the unruly institution and from wh

Sunday evening, or rather night, for it was about mi-inight a couple of the boys got warlike, but the forcible interces-sions of officers McKee and Kuerr caused peace to be proclaimed before it was broken; so all were happy except the officers who lost their fees.

NEWARK .- D. W. Crittenden, the new Superintendent of the Newark mine, arrived here on Sunday. He called on us yesterday and expressed himself pleased with our camp, which he saw was much more bright and lively than he had expected. Mr. Crittenden said he was going to do all that was in his power to exploit the mine and show that it was a ballion producing institution. We cordially seconded all that Mr. Crittenden said in favor of Pioche and concluded therefrom that he was the right man in

RETURNING.-By the Eureka Sentinel we learn that our old friend Fred, Baker has returned to the land of sand, silver and sage-brush and may shortly be exdected in Pioche. We extend to him a hearty welcome and hope that his trip to the East will bring him back to us as jolly and gay as ever. Fred is one of our best citizens and it will do the folks good to see him among a way as a silver. When same course for some distance. When same course for some good to see him amongst us again.

Quir.-The stormy weather has left ns, and now we are enjoying the pleasant warmth of a suppy and cloudless sky. We do not know whether the late stormy term was due to the comet or any other man; but we do know that the fine and pleasant weather of the last day or two, seemed more than ordinarily ac-

It happened in this wise: Whilther cage was being low-red, a pair of pincers slipped through the bottom of the same, falling a distance of 200 feet and striking Presho upon the top of the bead inflicting a frightful gash in his scalp. Doctor Manson rendered the necessary surgical assistance.—[G. H. News, 21.

A NUMBER of young! boys about town A NUMBER of young boys about fown have formed an aunteur ministrel and theatrical company. Their performances thus far have been private, but they in tend shortly to give a public entertainment. Abe Leventhal is the headlight of the lostitution, and his company is daily rehearsing for its first public appearance.—[Eureka Sentine].

The Colorado political war is still progressing. The latest phase is a suit for libel, by H. C. All-man, United States Attorney for Colorado, against the editors of the Rocky Mountain News. The sir about Denver is so full of grasshoppers that they darken the sun. They are going south.—[Denver Times.

FROM a Rentleman who arrived from Huntington Valley we learn that the late rains did no considerable damage to the hay crop. Some of the ranchers who had started to cut met with a trifling loss.—[Eureka Sentine], 24.

CELEBRATION AT PANACA.

Panaca, July 24, 1874. EDITOR RECORD: Being on a visit to Pañaca, and baving witnessed a Mormon celebration, I thought I would send you an account of it.

There was considerable firing of anvils and abouting as early as 5 o'clock. The American flag floated from the schoolbouse at sunrise. The exercises commenced about 9 o'clock, when the school children were formed in line and paraded children were formed in line and paraded for about three-quarters of an hour, sing-ing as they marched. The young ladies were dressed in white, and each carried the Stars and stripes, making a very im-posing appearance. They then re-paired to the school-house, which was decorated with evergreens and trans-parencies bearing inscriptions. decorated with evergreens and transparencies bearing inscriptions appropriate to the occasion. The programme for the day being read, S. Leewas appointed marshal of the day. The chaptain offered a short prayer, after which the Song of Welcome was sung by the school children. The orator of the day (the court-ous Mr. Finley) was then presented, and gave an account of the organization and progress of Mormonism up to the present time. (This is the twenty-seventh anniversary of their entry into Salt Lake. After this Bishop Jones and several other adherents to the Mormon church addressed those present. The exercises lasted until 1 o'clock. In the afternoon at 3 o'clock the children, the afternoon at 3 o'clock the children to the number of 150, met to have a dance, and being turnished with candies the whole world. Who wants that letter is still the question.

OPERATION.—Our friend Dr. Deal had an interesting case the other day. He was called to place a man's jaw in a jawing condition, that was afflicted with a looseness of that important member. Saints. Yours etc. GENTLE. Yours, etc., GENTILE.

Ar the side of the Central Pacific Rail road, to R-no, is a huge wooden tank, from which the locomotives recive their supply of water. The pipe from which it c water is led is a foot and a half in Deal reduced the unruly institution and had his patient's jews wagging as freely as ever. The Docter says it will not do for that man to be interviewed too much, otherwise it will cost him (the patient) all he makes to keep his jawing tackle in proper condition.

De vesterday morning's Salt in proper condition.

The vesterday morning's Salt in the passengers were wrapped in silent situabler, the westward-bound train silent si er of the stage line for which Mr. Vandyke is agent. Under the new management the route has been entirely regarized and good time may be depended upon. From the end of the railroad to Pioche the service will take in future 55 hours, a great improvement on former arrangements. As the Utah Southern R. R. progresses the time will become the favorite as regards the link between this point and railroad transit.

Praceful.—On the belligerent order we have but little to report. Sunday and Monday passed off gently and screnely without much to cause a ripple on the calm current of ordinary events. On Sunday evening, or rather night, for it was about midnight a couple of the boys got warlike, but the forcible intercessions of officers MeKee and Keept caused. It has now been definitely ascertained that at least one of the Iudians whose that at least one of the Indians whose bodies were found west of town on Sunday was murdered. Walter Marsden, who converses in the Shoshone tongue, has interviewed some of the Indians on the subject, and informs us that some time since a number of the Indians produced some whisky, and soon became very drunk. A quarrel soon broke out between them, and a son of Captain Shout, a Jude, shot one of the number. Whether any other was killed at the time Whether any other was killed at the time he is unable to ascertain. When near the top, however, they separated to the right and left, and were lost to view until they again appeared within a few accords of each other, outlined against the sky beside the flag pole.
